committed to enhancing bilateral ties

Serbia National Day

A future strong of financial growth

LEONARD NAGAI
President, Japan-Serbia Foundation for Promotion of Friendship and Peace

Leaning on my innumerable conversations on the occasion of the Republic of Serbia’s National Day, I want to express my sincerest congratulations on the occasion of the Republic of Serbia’s National Day. Serbia has experienced challenging times since it was part of the former Yugoslavia. Today, the country is making outstanding efforts to create a sustainable and prosperous economic environment. The country’s economic strategy is centered on economic growth, job creation, and increased productivity. Serbia aims to achieve a high level of economic development and improve living standards for its citizens. The government is committed to attracting foreign direct investment, promoting exports, and developing the tourism sector.

Japan-Serbia relations have a long history of cooperation and friendship. Japan supports Serbia’s integration into the European Union and its efforts to strengthen democratic institutions and the rule of law. Japan-Serbian cooperation is characterized by strong economic ties, cultural exchange, and people-to-people relations. Japan is committed to contributing to Serbia’s economic development and integration into the international community. Serbia is also an important partner for Japan in the region, and the two countries share common interests in promoting peace and stability in the region.

The Japanese government and people have a long history of support for Serbia, and this relationship is further strengthened by the spirit of the Olympic Games and Paralympic Games. Japan-Serbian cooperation is based on mutual respect, understanding, and trust. The Japanese government is committed to promoting bilateral ties and expanding areas of cooperation to benefit the people of both countries.

Congratulations to the People of the Republic of Serbia on the Occasion of Their National Day
